### **Volume A**

Question No : 1

You discovered a slow performance issue during an archive process with delete deferred. By using the Statistical Report and the Relationship Index Analysis, you were able to determine that there was a missing index on one of the tables. The index has been added to the database, and the Statistical Report reflects that the index is being used for a key lookup. Performance has improved somewhat. Which two actions will help you to further increase performance of the archive? (Choose two.)

- A. Force a scan on this table.
- B. Increase your commit frequency.
- C. Use more than one database connection for the archive process.
- D. Increase the Key Lookup Limit for this table.
- E. Turn the Compare Rows option off.
