Answer: A

Question No : 4 DRAG DROP

Match the client type on the left with its key benefit on the right by dragging the client type into the correct box.

Client Type:		Key Benefit:
Zero Client		A client with negligible processing capability that typically provides rich functionality independent of the central server.
Thick Client		A simple computer with a light-weight OS that has been optimized for establishing a remote connection with a server-based computing environment.
Thin Client		A server-based computing model in which the end user's computing device has no local storage and retains OS in flash memory.

Answer:

Client Type:		Key Benefit:
Zero Client	Thick Client	A client with negligible processing capability that typically provides rich functionality independent of the central server.
Thick Client	Thin Client	A simple computer with a light-weight OS that has been optimized for establishing a remote connection with a server-based computing environment.
Thin Client	Zero Client	A server-based computing model in which the end user's computing device has no local storage and retains OS in flash memory.

Explanation: A client with negligible processing capability that typically provides rich functionality independent of the central server. **Thick Client**

A single computer with a light-weight OS that has been optimized for establishing a remote connection with a server based computing environment. **Thin Client**

Question No : 5
