Answer: D,E

Question No : 3

In the Multi-Org model, which organization type is the highest level that impacts accounting?

- A. Ledger
- B. Operating Unit
- C. Business Group

Oracle 1Z0-519 Exam

D. 6RE/tegai Entity

E. Inventory Organization

Answer: A

Question No : 4

The materials manager has noticed that several items were created and assigned to various inventory organizations, but the analyst skipped the "Copy from Template" step. The manager would like to know how to correct the items.

Which three statements are true? (Choose three.)

A. Apply the template in the organization item. It would automatically update the Master Item window.

B. You can use the Item Attribute Copy form to update the value of an item attribute across multiple organizations in a given organization hierarchy.

C. You can change an organization-level attribute with the Master Item window. If you do this, it will update the organization-level attribute across all organizations.

D. You can use the Organization Item window to update organization-level item attributes. This would update organization-level attributes in your current organization only.

E. To update master-level attributes, use the Master Item window. If an attribute is controlled at the master level, the value of the attribute applies for all organizations to which the item is assigned.

Answer: B,D,E
