- B. The split might fail causing no deliveries to be sent.
- C. The two deliveries will be sent concurrently causing issues with the MTA.
- D. The query may not have been completed before the scheduler runs again.

Answer: D

Question No: 6

Which is required when creating a new Plan?

- A. Description
- B. Parent
- C. Start and end date
- D. Nature

Answer: D

Question No: 7

A user receives an Adobe Campaign email notification where they are informed that approval is needed for a certain delivery. The user logs into the Adobe Campaign console and wants to approve the mentioned delivery via the delivery dashboard but the approval link is NOT displayed there.

What would cause the approval link to NOT be shown?

- A. The delivery has already been approved by another operator.

## **Adobe 9AO-389 Exam**

- B. The user needs to belong to the "Delivery operators" group in order to see the link.
- C. Only the link provided in the email notification can be used to approve the delivery.
- D. The content of the delivery needs to be approved by another operator first.

Answer: A

Question No: 8

What is the purpose of the "Taken into account if" expression on a predefined filter?

- A. The "Taken into account if" expression provides the marketing user with a drop-down to select which conditions to apply.
- B. The conditions on which the "Taken into account if" expression is applied will only be used if the "Taken into account if" expression is true.
- C. The "Taken into account if" expression is used to only display an input when the expression is true.
- D. The "Taken into account if" expression can be used to format the filter result

Answer: D

Question No: 9

You want to add the following new columns to the output of a direct mail file extract:

```
<firstparturl><firstName>-<lastName>
```

Firstparturl is already declared in a JavaScripts activity which will be executed before the targeting query:

```
vars.firstparturl ='http:/ /www.amazingcompany.com/u=';
```

The additional column for recipient called John Doe should look like this:

```
http:/ /www.amazingcompany.com/u=John-Doe
```

How would you have created the expression in the query activity (Additional columns window) in order to meet the above mentioned requirement?

- A. 'vars.firstparturl' +vars.firstName+' -' +vars.lastName
- B. \$(vars/@firstparturl)+@firstName+' -'+@lastName
- C. \$(vars.firstparturl)+firstName+' -' +lastName
- D. 'vars.firstparturl' +\$(vars/ @firstName)+' -' +\$(vars/ @lastName)

## Adobe 9AO-389 Exam

Answer: D

- D. Add the email to the schema definition.

Answer: C

Question No: 11

A new schema is defined. This error appears when the schema is saved. What is the reason for this error?

```
<srcSchema name="prospect namespace="demo"/>
  <element name="prospect">
    <key name="email">
      <keyfield xpath="@email"/>
    </key>
    <compute-string expr="@lastName + [location/@zipCode]"/>
    <attribute length="50" name="email" type="string"/>
    <attribute length="20" name="lastName" type="string"/>
    <attribute length="20" name="firstName" type="string"/>
    <attribute name="zipCode" type="short"/>
  </element>
</srcSchema>
```
