- A. Once published, the tab order cannot be changed.
- B. Moving the tabs will require adjustments in security.
- C. The General tab must always be the first tab on a form.
- D. The form must be in a Revision in Progress state prior to changing the tab order.

Answer: B

Question No: 11

A portal change has been requested to add two sections, and one of the sections should display collapsed. Given that the impacted portal is open in Portal Builder, which process(es) could be used?

- A. Only a user can determine which portal sections are collapsed.
- B. This scenario is not feasible because portal sections cannot collapse.
- C. Log-in as the system user in order to make the change. Select the Portal Sections library, place a check mark in the select box next to the two sections which are to be added, and click the Add To Portal button. For the section that is to be displayed collapsed by default, in the Portal Layout View select the Collapsed By Default check box. Select the Save button.
- D. Select the Portal Sections library, place a check mark in the select box next to the section which is to be added, and click the Add To Portal button. Place a check mark next to the next section to be added, and click the Add To Portal button. For the section that is to be displayed collapsed by default, in the Portal Layout View select the Collapsed By Default check box. Select the Save button.

Answer: D
