- A.** INTEGER
- B.** USERNAME
- C.** HTML
- D.** TIMESTAMP
- E.** TEXT

Answer: A,C,E

Question No : 6

A customer wants to use Desktop Assistant for a non-SAP target application that is not listed in the Product Availability Matrix (PAM) and asks you whether this is possible. What do you reply?

- A.** Desktop Assistant can be rolled out for an application, but will support the application context only.

- B.** Because the application is not listed in the PAM, Desktop Assistant cannot be rolled out for this application.
- C.** The PAM shows the limitations for SAP applications. Non-SAP applications are supported out-of-the-box.
- D.** Because the application is not listed in the PAM, it is not officially supported. You must evaluate whether the application will work.

Answer: D

Question No : 7

What are the best practices to create a recording? Note: There are 2 correct answers to this question.

- A.** Use the Quick Recording option for the best possible recording results.
- B.** Set up the application in the same way that the end user would use it.
