

DeII EMC DEA-2TT3 Exam

Volume: 66 Questions

Question No:1

An organization wants to deploy performance sensitive applications to meet their business requirements.

Which type of storage device is suitable?

- A. SATA drive
- B. Solid-state drive
- C. SAS drive
- D. Optical disk drive

Answer: A

Question No:2

Which phase of the cloud service lifecycle involves making business use case decisions for the cloud service offering portfolio?

- A. Service Termination
- B. Service Planning
- C. Service Creation
- D. Service Operation

Answer: C

Question No:3

Refer to the exhibit, which represents a consumer environment consisting of multiple VMs running Windows operating systems (OSs).

For compliance reasons, the cloud service provider maintains version control over the OS provided to the consumer. The service provider also ensures that the configurations of the VMs comply with the configuration policy for the OS version. The configuration policy includes the two conditions shown in the exhibit. A monitoring tool verifies VM configurations against the configuration policy and provides the compliance results shown.

What is the percentage of compliance non-adherence?

DeII EMC DEA-2TT3 Exam

Configuration policy

- Condition 1: Update to latest OS version
Condition 2: Apply all OS patches

- A. 30.12%
- B. 33.34%
- C. 58.33%
- D. 66.67%

Answer: D

Question No:4

Which process involves determining the optimal resources required to meet seasonal spikes in resource demand?

- A. Configuration management
- B. Change management
- C. Capacity management
- D. Incident management

Answer: C

Question No:5

What is an organizational benefit of adopting modern applications?

- A. Enhances competitiveness
- B. Removes dependency on IT completely

DeII EMC DEA-2TT3 Exam

- C. Eliminates CAPEX
- D. Removes dependency on service provider

Answer: A

Question No:6

Which method optimizes network performance by distributing network traffic across the shared bandwidth of all the ISLs?

- A. Link aggregation
- B. Network zoning
- C. Network segmentation
- D. Link failover

Answer: D

Question No:7

Which task describes adherence to compliance?

- A. Ensure security policies are being enforced
- B. Define access rights to users
- C. Assess the cloud provider's capability to provide logs
- D. Assess assets with realistic valuations

Answer: D

Question No:8

What is a key benefit of using containers?

- A. Eliminates any long-term commitments to a technology stack
- B. Helps speed up software release cycles and improve software quality

DeII EMC DEA-2TT3 Exam

- C. Enables services to be delivered in hours or days, not weeks
- D. Provides better portability without requiring code changes

Answer: B

Question No:9

What is a benefit of the active-active cluster implementation?

- A. Enhances performance and availability of a service
- B. Lower total cost of ownership for providing services
- C. Improves security of applications running on the cluster
- D. Ability to run multiple services on one physical compute system

Answer: D

Question No:10

Which activity is a part of people transformation?

- A. Automation of IT tasks that reduces manpower needs
- B. Adoption of an modern IT infrastructure
- C. Communication between IT staff and business leaders
- D. Adoption of a standard framework such as ITIL

Answer: A

Question No:11

A specific intrusion detection and prevention system (IDPS) scans events against known attack patterns.

Which technique is the IDPS using?

- A. Plug-in-based detection
- B. Signature-based detection

DeII EMC DEA-2TT3 Exam

- C. Device-based detection
- D. Anomaly-based detection

Answer: D

Question No:12

What is a benefit of synchronous remote replication?

- A. Replicates data across any geographic location without impacting response time
- B. Ensures source and replica have identical data at all times
- C. Supports locality of reference to improve replication performance
- D. Saves network bandwidth by replicating only deduplicated data

Answer: A

Question No:13

Which can an IT department do to better meet IT challenges and support digital businesses?

- A. Become more technology centric
- B. Focus on delivery and management of digital assets
- C. Become more service centric within cost constraints
- D. Focus on providing services without being distracted by costs

Answer: A

Question No:14

A new service has been created and the service instance is ready to use. What type of an alert is generated to notify the user about this event?

- A. Instructional
- B. Informational
