Microsoft Power Platform Fundamentals

Version: 25.0

[Total Questions: 249]

Topic break down

Topic	No. of Questions
Topic 1: Understand the business value of Power Platform	18
Topic 2: Understand the Core Components of Power Platform	21
Topic 3: Demonstrate the business value of Power BI	30
Topic 4: Demonstrate the business value of Power Apps	28
Topic 5: Demonstrate the capabilities of Power Automate	38
Topic 6: Demonstrate the business value of Power Virtual Agents	10
Topic 7: Misc, Questions	104

Topic 1, Understand the business value of Power Platform

Question No : 1 HOTSPOT - (Topic 1)

A company plans to use Power Platform to build apps which address specific business challenges.

You need to recommend the appropriate types of Power Apps to use.

What should you recommend? To answer, select the appropriate option in the answer area.

NOTE: Each correct selection is worth one point.

Scenario	Tool
Field technicians need a mobile app to capture the location and the image of defective products.	<div style="border: 1px solid black; padding: 2px;"> <div style="background-color: #f0f0f0; padding: 2px; text-align: right;">▼</div> <div style="padding: 2px;"> Canvas app Power Apps portal Common Data Service </div> </div>
Sales representatives need to see different views and dashboards in the sales app.	<div style="border: 1px solid black; padding: 2px;"> <div style="background-color: #f0f0f0; padding: 2px; text-align: right;">▼</div> <div style="padding: 2px;"> Canvas app Model-driven app Power Apps portal </div> </div>
External customers need to view the progress of their service cases.	<div style="border: 1px solid black; padding: 2px;"> <div style="background-color: #f0f0f0; padding: 2px; text-align: right;">▼</div> <div style="padding: 2px;"> Model-driven app Power Apps portal Common Data Service </div> </div>

Answer:

Scenario	Tool
Field technicians need a mobile app to capture the location and the image of defective products.	<div style="border: 1px solid black; padding: 2px;"> <div style="background-color: #f0f0f0; padding: 2px; text-align: right;">▼</div> <div style="padding: 2px;"> Canvas app Power Apps portal Common Data Service </div> </div>
Sales representatives need to see different views and dashboards in the sales app.	<div style="border: 1px solid black; padding: 2px;"> <div style="background-color: #f0f0f0; padding: 2px; text-align: right;">▼</div> <div style="padding: 2px;"> Canvas app Model-driven app Power Apps portal </div> </div>
External customers need to view the progress of their service cases.	<div style="border: 1px solid black; padding: 2px;"> <div style="background-color: #f0f0f0; padding: 2px; text-align: right;">▼</div> <div style="padding: 2px;"> Model-driven app Power Apps portal Common Data Service </div> </div>

Explanation:

Scenario	Tool
Field technicians need a mobile app to capture the location and the image of defective products.	<div style="border: 1px solid black; padding: 2px;"> <div style="border-bottom: 1px solid black; padding: 2px;">▼</div> <div style="padding: 2px;">Canvas app</div> <div style="padding: 2px;">Power Apps portal</div> <div style="padding: 2px;">Common Data Service</div> </div>
Sales representatives need to see different views and dashboards in the sales app.	<div style="border: 1px solid black; padding: 2px;"> <div style="border-bottom: 1px solid black; padding: 2px;">▼</div> <div style="padding: 2px;">Canvas app</div> <div style="padding: 2px;">Model-driven app</div> <div style="padding: 2px;">Power Apps portal</div> </div>
External customers need to view the progress of their service cases.	<div style="border: 1px solid black; padding: 2px;"> <div style="border-bottom: 1px solid black; padding: 2px;">▼</div> <div style="padding: 2px;">Model-driven app</div> <div style="padding: 2px;">Power Apps portal</div> <div style="padding: 2px;">Common Data Service</div> </div>

Question No : 2 - (Topic 1)

A company uses Dynamics 365 Sales. The company uses a browser-based app named Sales Hub.

You need ensure that users can access data from mobile devices.

Which app should users install?

- A. Dynamics 365 Remote Assist
- B. Dynamics 365 Finance
- C. Dynamics 365 Business Central
- D. Dynamics 365 for Phones

Answer: D

Explanation:

Use the Dynamics 365 for phones and Dynamics 365 for tablets apps for your sales, customer service, field service, and other tasks when you're on the go. With one download from your app store, you'll automatically have access to all the apps you need for your role. You will see apps with the new Unified Interface on your mobile device.

Reference:

<https://docs.microsoft.com/en-us/dynamics365/mobile-app/dynamics-365-phones-tablets-users-guide>

Question No : 3 - (Topic 1)

A company uses Power Platform.

You must ensure that users cannot share customer data with other users. You must also ensure that users cannot connect to data sources unless you grant the user explicit permissions to access a data source.

You need to recommend solutions to meet the company's security requirements.

Which two types of policies should you recommend? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Office cloud policies
- B. Group Policy Objects
- C. environment-level policies
- D. tenant-level policies
- E. preset security policies

Answer: C,D

<https://docs.microsoft.com/en-us/power-platform/admin/create-dlp-policy>

Question No : 4 HOTSPOT - (Topic 1)

A rapidly growing company wants to empower users to build apps, automate business processes, and analyze data without requiring IT expertise or development skills and without

increasing IT expenses and dependencies.

You need to recommend tools so that users can accomplish specific tasks.

Which tools should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Scenario	Application
Build automatic workflows that access multiple data sources.	<div data-bbox="831 622 1214 656">▼</div> <ul data-bbox="831 656 1214 824" style="list-style-type: none">AI BuilderPower AppsMicrosoft FlowAzure FunctionsPower BI

Explanation:

Scenario	Application
Build automatic workflows that access multiple data sources.	<div style="border: 1px solid black; padding: 2px;"> <div style="text-align: right;">▼</div> <div style="padding: 2px;"> AI Builder Power Apps Microsoft Flow Azure Functions Power BI </div> </div>
Create custom apps that address specific business needs.	<div style="border: 1px solid black; padding: 2px;"> <div style="text-align: right;">▼</div> <div style="padding: 2px;"> AI Builder Power Apps Microsoft Flow Azure Functions Power BI </div> </div>
Design insightful data visualizations.	<div style="border: 1px solid black; padding: 2px;"> <div style="text-align: right;">▼</div> <div style="padding: 2px;"> AI Builder Power Apps Microsoft Flow Azure Functions Power BI </div> </div>

Box 1: Microsoft Flow

Microsoft Flow, now called Power Automate, is cloud-based software that allows employees to create and automate workflows and tasks across multiple applications and

services without help from developers.

Box 2: Power Apps

PowerApps is a suite of apps, services, connectors and data platform that provides a rapid application development environment to build custom apps for your business needs.

Box 3: Power BI

Power BI is a business analytics solution that lets you visualize your data and share insights across your organization, or embed them in your app or website. Connect to hundreds of data sources and bring your data to life with live dashboards and reports.

Question No : 5 HOTSPOT - (Topic 1)

You are building Power Apps apps that use both Dynamics 365 Sales and Microsoft 365.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statement	Yes	No
Dynamics 365 Sales and Microsoft 365 must be in the same tenant to allow Single Sign-On (SSO).	<input type="radio"/>	<input type="radio"/>
You must download a product from AppSource to ensure that SSO works with Dynamics 365 Sales and Microsoft 365.	<input type="radio"/>	<input type="radio"/>

Answer:

Statement	Yes	No
Dynamics 365 Sales and Microsoft 365 must be in the same tenant to allow Single Sign-On (SSO).	<input type="radio"/>	<input checked="" type="radio"/>
You must download a product from AppSource to ensure that SSO works with Dynamics 365 Sales and Microsoft 365.	<input type="radio"/>	<input checked="" type="radio"/>

Explanation:

Statement	Yes	No
Dynamics 365 Sales and Microsoft 365 must be in the same tenant to allow Single Sign-On (SSO).	<input type="radio"/>	<input checked="" type="radio"/>
You must download a product from AppSource to ensure that SSO works with Dynamics 365 Sales and Microsoft 365.	<input type="radio"/>	<input checked="" type="radio"/>

Box 1: No

When you offer your application for use by other companies through a purchase or subscription, you make your application available to customers within their own Azure tenants. This is known as creating a multi-tenant application.

Box 2: No

Question No : 6 - (Topic 1)

A distribution company has multiple warehouses.

Tax rates charged on sales orders need to be calculated based on locality and region.

You need to recommend a cost-effective solution that can be implemented quickly.

What should you recommend?

- A. Check AppSource for a tax add-on.
- B. Create alerts in Dynamics 365 Finance for tax table changes.
- C. Implement the Common Data Model.
- D. Run a Power BI report.
- E. Write scripts and code tax updates.

Answer: B

Reference:

<https://docs.microsoft.com/en-us/dynamics365/finance/general-ledger/indirect-taxes-overview>

Question No : 7 DRAG DROP - (Topic 1)

A company uses Power Apps.

You need to perform administrative tasks for the company.

Which admin centers should you use? To answer, drag the appropriate admin centers to the correct requirements. Each admin center may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Admin centers	Requirement	Admin center
Azure Active Directory	Create user accounts for Power Apps.	Admin center
Dynamics 365 Admin center	Assign the Environment Maker role to a user.	Admin center
Power Apps Admin center		
Power BI Admin portal		

Answer:

Admin centers	Requirement	Admin center
Azure Active Directory	Create user accounts for Power Apps.	Azure Active Directory
Dynamics 365 Admin center	Assign the Environment Maker role to a user.	Power Apps Admin center
Power Apps Admin center		
Power BI Admin portal		

Explanation:

Requirement	Admin center
Create user accounts for Power Apps.	Azure Active Directory
Assign the Environment Maker role to a user.	Power Apps Admin center

Box 1: Azure Active Directory

Create the company users in the Azure Active Directory.

Box 2: Power Apps admin center

In the Power Apps Admin center, manage environments that you've created and those for which you have been added to the Environment Admin or System Administrator role. From the admin center, you can perform these administrative actions:

Create environments.

Rename environments.

Add or remove a user or group from either the Environment Admin or Environment Maker role.

Etc.

Question No : 8 HOTSPOT - (Topic 1)

A company plans to implement Power Platform apps. The company does not plan to use any development tools or plug-ins.

Which actions can you perform?

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statement	Yes	No
You can synchronize account names with a third-party proprietary database.	<input type="radio"/>	<input type="radio"/>
You can create invoices from orders and then send the invoices to the customer.	<input type="radio"/>	<input type="radio"/>

Answer:

Statement	Yes	No
You can synchronize account names with a third-party proprietary database.	<input checked="" type="radio"/>	<input type="radio"/>
You can create invoices from orders and then send the invoices to the customer.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

Statement	Yes	No
You can synchronize account names with a third-party proprietary database.	<input type="radio"/>	<input type="radio"/>
You can create invoices from orders and then send the invoices to the customer.	<input type="radio"/>	<input type="radio"/>

The Power Platform uses PowerApps, Power BI, and Power Automate (previously named Flow) to customize, extend, and build all the apps you need for your business and unlock the potential of Office 365 and Dynamics 365.

Question No : 9 - (Topic 1)

A large retail company implements Power Apps, Microsoft Flow, and the Common Data Service.

The board of directors is asking whether users are finding value in the technology. The company would like to measure and report usage of the software.

You need to recommend a tool to determine software usage.

What should you recommend?

- A. Microsoft Intune
- B. Azure Stream Analytics
- C. Power Platform Analytics
- D. Dynamics 365 Product Insights

Answer: C

Explanation:

The Power Platform Analytics Usage report is the default reports seen by the logged in environment admin. It provides total app launches and daily active users across all apps in the environment. Admins can filter the view with attributes like device platform, player version, country, state, and city.

Reference:

<https://docs.microsoft.com/en-us/power-platform/admin/analytics-powerapps>

Question No : 10 DRAG DROP - (Topic 1)

You need to explain the major components of the Common Data Model (CDM) and their functions.

Match each term to its definition.

Instructions: To answer, drag the appropriate term from the column on the left to its definition on the right. Each term may be used once, more than once, or not at all. Each correct match is worth one point.

NOTE: Each correct selection is worth one point.

Common Data Model		
Microsoft Power Platform		
Workflows		

Explanation:

Purpose	Tool
Helps jumpstart application development by leveraging business logic, security, and integrations.	Microsoft Power Platform
A set of records used to store data.	Entities

Box 1: Microsoft Power Platform

Power Platform combines the robust power of PowerApps, PowerBI, and Microsoft Flow into one powerful business application platform – providing quick and easy app building and data insights. Each component of the Microsoft Power Platform is built on the Common Data Service for Apps. Each component is dynamic by itself, but brilliant and masterful when combined.

The Microsoft Power platform brings all your data together into a common data model.

Box 2: Entities

An entity is a set of records used to store data, similar to how a table stores data within a database.

Question No : 11 HOTSPOT - (Topic 1)

You have version 1.0.0.0 of a published Power Apps app. You create and publish version 2.0.0.0 of the app. A customer goes through the process of restoring the previous version of the app.

How many versions of the app are displayed in the Version tab for the app? To answer, select the appropriate option in the answer area.

You will see versions of the app.

	▼
0	
1	
2	

Answer:

Question No : 12 HOTSPOT - (Topic 1)

You create a user-owned custom entity by using Common Data Service.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statement	Yes	No
You can change the entity ownership from User to Organization-owned.	<input type="radio"/>	<input type="radio"/>
You can create a business rule for a custom entity that can be used in a Flow.	<input type="radio"/>	<input type="radio"/>

Answer:

Statement	Yes	No
You can change the entity ownership from User to Organization-owned.	<input type="radio"/>	<input checked="" type="radio"/>
You can create a business rule for a custom entity that can be used in a Flow.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

Statement	Yes	No
You can change the entity ownership from User to Organization-owned.	<input type="radio"/>	<input checked="" type="radio"/>
You can create a business rule for a custom entity that can be used in a Flow.	<input checked="" type="radio"/>	<input type="radio"/>

Box 1: No

Common Data Service supports two types of record ownership. Organization owned, and User or Team owned. This is a choice that happens at the time the entity is created and can't be changed.

Box 2: Yes

By combining conditions and actions, you can do any of the following with business rules:

Set field values

Clear field values

Set field requirement levels

Show or hide fields

Enable or disable fields

Validate data and show error messages

Create business recommendations based on business intelligence.

Question No : 13 - (Topic 1)

This question requires that you evaluate the **BOLD** text to determine if it is correct.

You have a Power Apps app. You create a new version of the app and then publish the new version. A customer goes through the process of restoring the previous version of the app. In the Version tab for the app, you will see two versions of the app.

Review the underlined text. If it makes the statement correct, select "No change is needed." If the statement is incorrect, select the answer choice that makes the statement correct.

- A. No change is needed.
- B. one
- C. three
- D. four

Answer: C

Explanation:

Restore a canvas app to a previous version in PowerApps.

1. Open powerapps.com, and then click or tap Apps in the left navigation bar.
2. Near the right edge, click or tap the info icon for the app that you want to restore.
3. Click or tap the Versions tab, and then click or tap Restore for the version that you want to restore.

4. In the confirmation dialog box, click or tap Restore.

A new version is added to your list.

Reference:

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/restore-an-app>

Question No : 14 DRAG DROP - (Topic 1)

A travel company plans to use the Power Platform to create tools that help travel agents book customer travel.

You need to recommend solutions for the company.

What should you recommend? To answer, drag the appropriate tools to the correct requirements. Each tool may be used once, more than once, or not at all. You may need to

drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Question No : 15 - (Topic 1)

You need to implement Microsoft Business Applications along with the Microsoft Power platform.

Which three Microsoft products are part of the Power platform? Each correct answer presents a complete

solution.

NOTE: Each correct selection is worth one point.

- A. Microsoft Power Apps
- B. Azure Active Directory
- C. Microsoft Flow
- D. Azure Machine Learning
- E. Microsoft Power BI

Answer: A,C,E

Explanation:

The Power Platform uses PowerApps, Power BI, and Power Automate (previously named Flow) to customize, extend, and build all the apps you need for your business and unlock the potential of Office 365 and Dynamics 365.

Reference:

<https://docs.microsoft.com/en-us/learn/powerplatform/>

Question No : 16 DRAG DROP - (Topic 1)

A company has locations in multiple regions. The company develops solutions based on Power Apps and Power Automate.

You need to recommend features to support the implementation.

Which Power Platform features should you recommend? To answer, drag the appropriate features to the correct requirements. Each feature may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Requirement	Feature
Ensure fastest response times for each company location.	Environment
Create test and production copies of the data and apps.	Security group

Question No : 17 - (Topic 1)

You are a customer service manager.

You need to implement a Power Apps portal that allows customers to submit cases.

Which type of data source is used?

- A. Dynamics 365 Connector
- B. Microsoft SharePoint
- C. Microsoft Azure Storage
- D. Common Data Service

Answer: B

Explanation:

SharePoint can be set up to setup customer feedback.

Note: The PowerApp uses Finance and Operations connector to grab sales order information and SharePoint connector to connect and write the data to SharePoint list.

Reference:

<https://powerapps.microsoft.com/en-us/blog/scenario-2-collect-customer-feedback-in-sharepoint-after-order-delivery/>

Question No : 18 DRAG DROP - (Topic 1)

You manage the support team at a rapidly growing company.

Customers and support technicians need a better experience when logging and responding to support requests. You need more visibility into what the support technicians are doing every week.

You need to recommend tools to help the company's needs.

Which tools should you recommend? To answer, drag the appropriate tools to the correct requirements. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Tools	Requirement	Tool
Power Apps	Customers must be able to submit support requests by using a website.	Tool
Microsoft Flow	Support requests must be created and stored.	Tool
Power BI	Support technicians must be notified when a new support request is entered.	Tool
Common Data Service	Support technicians must be able to enter a status report for work completed during the previous week by using a mobile app.	Tool

Answer:

Tools	Requirement	Tool
Power Apps	Customers must be able to submit support requests by using a website.	Power BI
Microsoft Flow	Support requests must be created and stored.	Common Data Service
Power BI	Support technicians must be notified when a new support request is entered.	Microsoft Flow
Common Data Service	Support technicians must be able to enter a status report for work completed during the previous week by using a mobile app.	Power Apps

Explanation:

Requirement	Tool
Customers must be able to submit support requests by using a website.	Power BI
Support requests must be created and stored.	Common Data Service
Support technicians must be notified when a new support request is entered.	Microsoft Flow
Support technicians must be able to enter a status report for work completed during the previous week by using a mobile app.	Power Apps

Topic 2, Understand the Core Components of Power Platform

Question No : 19 HOTSPOT - (Topic 2)

Your company wants to create a help desk system and implement Dynamics 365 Customer Service.

The company has the following requirements:

- ✎ Provide an application to allow support team staff to chat live with a customer.
- ✎ Automatically import data from a Microsoft Excel spreadsheet once a day.
- ✎ Provide a chatbot that can assist customers who need support.

You need to determine which applications to use to meet the requirements.

Which applications should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement	Application
Automatically import data from a Microsoft Excel spreadsheet once a day.	<input type="checkbox"/> Custom Connector <input type="checkbox"/> Azure Data Lake <input type="checkbox"/> Power Automate <input type="checkbox"/> Power BI
Provide a chatbot that can assist customers who need support.	<input type="checkbox"/> Power Virtual Agent <input type="checkbox"/> Power Automate

Answer:

Requirement

Application

Automatically import data from a Microsoft Excel spreadsheet once a day.

Dropdown menu with options: Custom Connector, Azure Data Lake, Power Automate, Power BI.

Provide a chatbot that can assist customers who need support.

Dropdown menu with options: Power Virtual Agent, Power Automate.

Explanation:

Requirement

Application

Automatically import data from a Microsoft Excel spreadsheet once a day.

Dropdown menu with options: Custom Connector, Azure Data Lake, Power Automate (highlighted), Power BI.

Provide a chatbot that can assist customers who need support.

Dropdown menu with options: Power Virtual Agent (highlighted), Power Automate.

Question No : 20 - (Topic 2)

A company uses Microsoft 365 and Dynamics 365 Sales. The company does not have any developers on its staff.

You need to explain to the executives the benefits of using Power Platform apps.

What are two benefits? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Users can send emails from Dynamics 365 Sales to their personal email addresses.
- B. Users can create Power Apps to create apps for different departments.
- C. Users can use Power Automate to share information between Microsoft 365 and Dynamics 365 Sales.

D. The company must unify all the mobile devices to one vendor.

Answer: B,C

Question No : 21 DRAG DROP - (Topic 2)

You manage the support team at a rapidly growing company.

Support technicians need a better experience when logging and responding to support requests.

You need to recommend tools to help the company's needs.

Which tools should you recommend? To answer, drag the appropriate tools to the correct requirements. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Tools	Answer Area	
	Requirement	Tool
Power Apps	Support technicians must be able to submit support requests by using an app.	<input type="text"/>
Power Automate	Customer data must be stored and synchronized with Dynamics 365 Finance.	<input type="text"/>
Power BI	Support technicians must be notified when a new support request is entered.	<input type="text"/>
Common Data Service		

Answer:

Tools	Answer Area	
	Requirement	Tool
Power Apps	Support technicians must be able to submit support requests by using an app.	Power Apps
Power Automate	Customer data must be stored and synchronized with Dynamics 365 Finance.	Common Data Service
Power BI	Support technicians must be notified when a new support request is entered.	Power Automate
Common Data Service		

Explanation:

Requirement	Tool
Support technicians must be able to submit support requests by using an app.	Power Apps
Customer data must be stored and synchronized with Dynamics 365 Finance.	Common Data Service
Support technicians must be notified when a new support request is entered.	Power Automate

Question No : 22 - (Topic 2)

A coworker is creating an app in Power Apps and needs to automatically synchronize data from an external source. The coworker is unable to locate a suitable Microsoft approved connector template in AppSource.

You need to recommend a solution for the coworker.

What should you recommend?

- A. Create a custom connector.
- B. Ask the outside source to send you the data once a week.
- C. Use Microsoft Flow to connect to the database.
- D. Open a ticket with Microsoft and request a new connector.
- E. Use Microsoft Azure Service Bus.

Answer: A

Explanation:

There are 250 + predefined connectors that you can use in your PowerApps and in your Microsoft Flows. If you do not find any that suits your needs you have the possibility to create a Custom Connector.

Note: A Custom Connector is a wrapper around a REST API (Logic Apps also supports SOAP APIs) that allows Logic Apps, Microsoft Flow, or PowerApps to communicate with that REST or SOAP API.

Reference:

<https://carinaclaesson.com/2019/09/06/setting-up-a-custom-connector-from-an-openapi-file-and-utilizing-it-in-powerapps-and-flow/>

Question No : 23 HOTSPOT - (Topic 2)

You are planning to use the Business Card Reader and Sentiment Analysis prebuilt AI models to build solutions.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statement	Yes	No
The Business Card Reader model can be used with both Power Automate and Power Apps.	<input type="checkbox"/>	<input type="checkbox"/>
The Sentiment Analysis model can be used Power Automate only.	<input type="checkbox"/>	<input type="checkbox"/>

Answer:

Statement	Yes	No
The Business Card Reader model can be used with both Power Automate and Power Apps.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
The Sentiment Analysis model can be used Power Automate only.	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Explanation:

Statement	Yes	No
The Business Card Reader model can be used with both Power Automate and Power Apps.	<input type="checkbox"/>	<input type="checkbox"/>
The Sentiment Analysis model can be used Power Automate only.	<input type="checkbox"/>	<input type="checkbox"/>
